Dear Friends,

We hope you are doing well and staying healthy. And, we wanted to let you know that we are open for business and here to help.

While Governor Newsom has directed all residents to heed State public health directives to stay at home, our industry is part of the **Essential Critical Infrastructure Sector** which includes **“services necessary for maintaining the safety, sanitation and essential operation of a residence”**. To read details click [here](#).

As we prepare for the long haul to help slow the spread of COVID-19, the CDC has issued recommendations for creating a **Household Plan of Action** to include:

- Talk with people to be included in your plan
- Plan ways to care for those who might be at greater risk for serious complications
- Get to know your neighbors – talk about emergency planning
- Identify aid organizations in your can contact if needed
- Create an emergency contact list
- Learn about emergency operations plan at your child’s school
- Learn about your employer’s emergency operations plan
- Choose a room that can be used to separate sick household members
- Practice good personal health habits
- Stay informed and follow directions from public health officials
- Stay in touch with others especially those with chronic medical conditions
- Take care of emotional health of your household members

Since the ancient Roman times, Plumbers have been at the forefront of public health. Here at Anderson Plumbing, Heating & Air our Plumbers and HVAC Technicians are committed to helping you and your family navigate this health crisis.

We are committed to serving your household to the best of our ability. We have implemented best practices for maintaining the lowest health risk possible for both our clients and our employees. If you have any concerns, we will be happy to discuss solutions with you.

Sincerely,

Mary Jean Anderson

Mary Jean Anderson
